PROFESSIONAL SUMMARY

Computer Science and Engineering student with foundational knowledge of programming, web development and machine learning. Interested in software development, AI/ML and cybersecurity, with hands-on exposure through academic projects, personal experiments and hackathon participation.

EDUCATION

Netaji Subhash Engineering College (NSEC), Kolkata
B.Tech – Computer Science & Engineering | 2024–2028

St. Xavier's Inter College, Chaibasa
Higher Secondary | 2022–2024 | 75%

St. Viveka English Medium School, Chaibasa
Secondary Education | 2020–2022 | 67%

EXPERIENCE & ACHIEVEMENTS

Skill Ladders — Student Intern, Machine Learning

September 2025 – October 2025

- Completed a two-month internship involving training and live project phases.
- Gained practical exposure to machine learning concepts and project workflows.

SELECTED PROJECTS

Bharat Legal Sahayak – Hackathon (Team indraSYNC)

- Built an AI-powered, multilingual legal assistance platform with a voice-first, conversational interface.
- Aims to bridge language and accessibility barriers so users can seek and understand basic legal guidance.
- **Achievement:** Second Prize.

Technologies: Kotlin, Jetpack Compose, Django REST, Sherpa-ONNX, Gemini API, Firebase

Autonomous Drone Swarm Simulation – Hackathon

- Contributed to an Unreal Engine-based virtual drone simulation for disaster-relief scenarios.
- Explored autonomous swarm coordination and AI-assisted drone operations.
- **Achievement:** Second Prize in College Hackathon (2025).

Technologies: Unreal Engine, Autonomous Systems Concepts

HeatShield – Heat Risk Awareness

- Worked on a heat-risk awareness solution using environmental data and weather APIs.
- Explored location-based data processing and heat-risk analysis.

Technologies: Python, FastAPI, Open-Meteo API, GeoJSON

Biometric Payment System

- Developed a fingerprint-based payment prototype integrating a fingerprint sensor.
- Worked on user management and data handling.

Technologies: Python, Tkinter, SQLite, R307S Fingerprint Sensor

Personal Developer Portfolio

- Built a responsive personal portfolio to showcase projects, skills and professional information.
- Hosted the website using GitHub Pages.

Technologies: HTML5, CSS3, JavaScript, Git, GitHub

SKILLS

Programming: Python, C, C++

Web Development: HTML5, CSS3, JavaScript (Basic)

Tools & Systems: Git, GitHub, Linux

Areas of Knowledge: Machine Learning Fundamentals, Database Fundamentals, Cybersecurity Fundamentals

CERTIFICATIONS

- 5-Day AI Agents Intensive Course with Google
- Artificial Intelligence and Machine Learning – Skill Ladders
- Cybersecurity Analyst Job Simulation – Tata
